Easily portable

The M-650 is a high capacity scale, which has been designed to weigh patients easily and accurately, which are wheelchair bound in either manual or motorised chairs.

The M-650 features a handle and wheels, meaning that the scale can be manoeuvred into position when required and the slimline profiles ensures that the M-650 is easy to store when it is not needed.

Optional connectivity options

The M-650 is available with either Bluetooth or Wi-Fi connectivity to ensure that our customers are able to transfer data seamlessly or input into EPR systems.

We would simply need to insert a connectivity module at the time of order and then provide you with our standard protocols for easy and simple integration into your existing system.

Easy to use

The M-650 features from our best-selling DP-3810 indicator. This device features from a full numeric keypad for easy BMI calculation and simple function keys.

The On/Off button ensures that you have full control over the device and you can prolong the battery life. Hold enables you to gain readings for unsteady patients and Tare allows you to deduct unwanted weight.
